

DD/R-065-63

11 January 1963

MEMORANDUM FOR: ORD

ATTENTION :

SUBJECT : LASERS

You are most popular.

The DCI is most concerned over the LASER business, and this time it concerns the U. S. program in LASERS. We have the action for providing him a staff study on the U. S. program in this field. This would also include at the end a statement of possible use the Agency might make of LASERS and our activity in this area. You or Bill should do this. I believe that the DOD probably has a condensed version of this effort which could perhaps be condensed further for the DCL. Please discuss.

SIGNED

EDWARD B. GILLER
Assistant Deputy Director
